Subject: stockade set aside

To whom it may concern: I am very much opposed to closing the above mentioned area to the public. We have watched as our public land is slowly disappearing due to environmentalist activity and special interest groups who would lock up any development and public use. I don't know if this is a scheme to put money into the state coffers or just keep tax paying citizens out or not let them enjoy our public land. It's time to consider the interests of the average oregonion instead of bowing under to another shut it down interest group that has lots of money to spend. Lets put up the wind farms as they will help all of us with energy costs but lets leave it public land for the public to use.

Cliff Asmussen, Burns, Oregon
