Subject: STOCKADE PLAN

Gentlemen:

I have been a hunter and fisherman in the state of Oregon all of my 56 years. Please do not let this happen! We sportsman have been bought out and sold out too many times in this state by all of the goody two shoes that need to line their greedy little pockets for one reason or another. License, applications and tag costs have constantly been raised, along with the disappearance of the quality and opportunities to hunt or fish in a once productive state. My uncle told me 40 years ago that hunting and fishing were doomed sports here in Oregon. It just so happens that the true statement was made when we were hunting in that particular area of the state in 1969.

Thanks for your time

Kevin L. Copple
