Subject: lease hunting on State Owned lands

To Department of State Lands,

I am deeply concerned to learn that you are considering to lease State owned lands (Stockade) to private sector for exclusive use for hunting and fishing. I also understand public access to adjacent BLM lands could also be denied.

As a State and Federal paying tax payer, I find this totally unacceptable as I feel that these lands belong to the all the public and not just for the benefit of a few.

Please include in all your alternatives that the public has year around access for all recreation activities.

Thank you.
