

## **PUBLIC NOTICE**

### **REQUEST FOR A NAVIGABILITY STUDY FOR THREE RIVERS**

The Department of State Lands (DSL) has received a request to conduct a navigability study to determine the ownership of the submerged and submersible land below the line of ordinary high water underlying Three Rivers from River Mile 0.0 to 2.0 (its confluence with the Nestucca River to approximately 1,000 feet downstream of the confluence of Cedar Creek). DSL has determined that this request is complete and meets the requirements of OAR 141-121-0020.

If you want to receive a copy of this request, or provide comments concerning the need for, or alternatives to conducting a navigability study on this stretch of Three Rivers, please contact: Navigability Study Request Group, Oregon Department of State Lands, 775 Summer Street N.E., Suite 100, Salem, Oregon 97301-1279 or [Threerivers@dsl.state.or.us](mailto:Threerivers@dsl.state.or.us) You may also find a copy of the navigability study request on DSL's website at [www.oregonstatelands.us](http://www.oregonstatelands.us) DSL will use comments and information received at such time that it prepares an agenda item to the State Land Board requesting authorization to conduct the study.
